

Technical and commercial conditions for the licensing of Training Material

Main features of our Training Material

- There are **modules** that make up the **learning objectives**, which are then **grouped together** to form a **learning path**.
- The list of learning paths can be found in a dedicated [guide](#) on www.safeusediisocyanates.eu
- A learning path consists of multiple Scorm packages.
- It is possible to view the content on a laptop or tablet, but not on a smartphone.
- The learning objectives are produced using **Adobe Captivate** and as ZIP file created in the format "Scorm" 2004/4". 1 SCORM file has in average a size of 30 MB.
- The learning objectives contain text, graphics, audio, video and attachments, partly animated in a html5 compatible format.
- Videos are accessible via a link to the platform Vimeo.
- Attachments are available in PDF-Format.
- At the end of a learning path a quiz is included, (Scorm-Zip-File). This file states the status in the Learning Management System „finished“ and „examen passed sucessfully“, after the participant answered all questions.
- The certificate is not part of the SCORM package and should be created in the LMS.

Commercial conditions for licensing

- License Fee for individual training paths starts at **3.500 € per training path per year**.
- Minimum license period **5 years**
- Implementation fee (one-time 1000€ fee)
- **License Contract** to be signed
- Minimum threshold for a license agreement are 100 employees to be trained

Additional individual adaptations for customer LMS specifics at additional cost
Template of license contract available on request
